

ZERO100

10 inch full range speaker

Description

ZERO100 is a full range speaker designed specifically for users who pursue high-quality sound output. The box body is made of baked paint wood material, which not only ensures the beauty of the speaker, but also has good acoustic performance. ZERO100, with its outstanding performance, high-quality materials, and exquisite design, can bring users an excellent sound experience in both professional audio fields and daily entertainment scenarios.

Features

- The combination of 10 inch low-frequency and 1.75-inch high-frequency units provides high fidelity sound effects.
- The rated power is 300W, and the maximum can reach 1200W, meeting the needs of various scenarios.
- 15mm laminated board box with iron mesh, sturdy and durable.
- Equipped with NL4 connectors and lifting kits, it can flexibly adapt to various scenarios.
- Reasonable price, excellent performance, and value for money.
